# INTRODUCTION

# 02

## The key to success - Fish love it

Welcome dear customer,

Since 2024, Dreambaits was incorporated into Marcel Van Den Eynde's company. Dreambaits is a company that has been active in the carp world for more than 15 years. The bait has proven itself several times over. The use of only the best quality, fresh ingredients and this combined with the knowledge brings a sublime range of products. Marcel Van Den Eynde also possesses exceptional knowledge in fish feeds, attractors and ingredients. The knowledge of both companies is used to provide a range of products that every angler can enjoy.

On behalf of us, we wish you a fishfull year!

READYMADES - BOILIES

03

# SUPER KRILL

## Readymades - Boilies in 12, 15, 20 or 25 mm in 1 or 3 kg

The combination of sixteen ingredients resulted in a high-quality, water-soluble and easily digestible bait. The combination of the best liquids, pure Krill Hydrolysate and a flavour blend based on Monstercrab bring a superior smell and taste. This cocktail makes it an instant bait. Perfect to deploy during your short sessions and even in the cold winter months.

Pure flavour

**Groundbait**  
Method- and Stickmix

# CHOQUITA

## Readymades - Boilies in 12, 15, 20 or 25 mm in 1 or 3 kg

A snack and where you keep eating, was the thought when developing the Choquita. A hint of cardamon and a heat-resistant enzyme blend ensures the bait remains digestible for carp when the water temperature drops below 8 degrees Celsius. A subtle banana aroma with alternating notes of chocolate and vanilla. A talin-based sweetener and NHDC provide a sweet touch and Minamino+ contributes to the instant character.

#### WHY USE DREAMBAITS AMINO DIPS?

- A Dip is perfect for giving your hook bait, bag or stick mix an extra boost.
- Amino dips are liquid flavour and fragrance substances with additional additives and aminos.
- Dips are syrupy substances that are irresistible to carp. It is therefore a must-have for every angler!

#### WHY USE DREAMBAITS GROUNDBAIT, METHOD- AND STICKMIX?

- The flavours of the label are already incorporated into the ready to use mix.
- Each bagmix has its own unique composition of the accompanying boilie/ready-made, supplemented with ingredients that optimise the effect in all water layers and optimally release the added flavours for a fast response.

#### WHY USE DREAMBAITS WAFTERS?

- One of the many advantages of wafers, is the fact that they are lighter in weight than normal boilies. This way, the weight of the hook is efficiently compensated.
- The wafers feature additional liquid attractors that ensure that they work extremely attractively.

#### WHY USE DREAMBAITS HARD HOOKBAITS?

- These special harder hookbaits are to avoid unwanted species. Think of crabs, lobsters, gobies, dwarf catfish and similar unwanted species.
- Attractive Hard Hookbaits are made extremely attractive, even in very cold temperatures. As a result, they can be used all year, all-round.

# KRILL AND OCTOPUS

## Readymades - Boilies in 12, 15, 20 or 25 mm in 1 or 3 kg

A topper since its introduction in 2008. A combination of fishmeal, a generous amount of Krill, fish oils and a soft Octopus flavour give this boilie its distinctive high nutritional value, typical taste and excellent smell. The Krill & Octopus is therefore a true all-round foodbait that attracts fewer unwanted fish, catches everywhere and gets fast results.

## Readymades - Boilies in 12, 15, 20 or 25 mm in 1 or 3 kg

By adding a mix of essential fatty acids, a premix of stabilised vitamins/minerals, trace elements, anti-oxidants and Aloe Vera, we once again bring something unique. This coupled with a fast-digesting base with plenty of fibre, appetite stimulators and a mix of fermented ingredients. The taste is a slightly sour/fruity aroma with a creamy touch and flavour.

# CANDY CRUNCH

## Readymades - Boilies in 12, 15, 20 or 25 mm in 1 or 3 kg

Candy Crunch is a fast-digesting bait with lots of fibre, appetite stimulators, a mix of birdfoods and with a very high crunch effect due to oyster shells and seeds. The scent and flavour is scopex-based. This purposely has an extremely low PH to make it easier to detect. Usable in any situation and its high specific weight makes it extremely suitable for canal and river fishing!

## NEW PRODUCTS

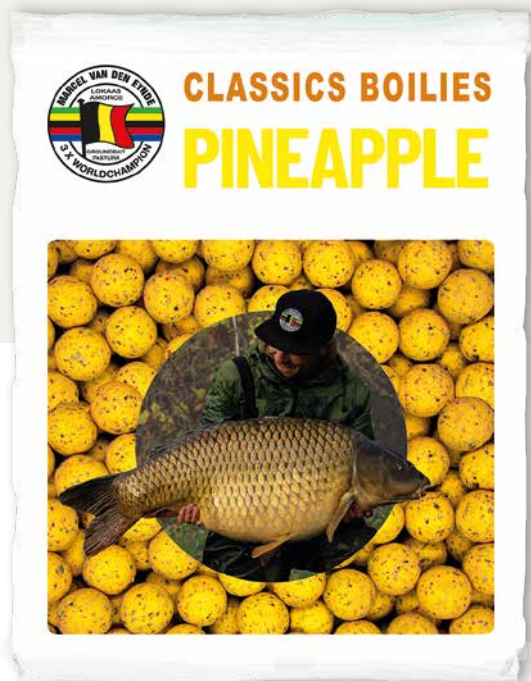

New products for 2025; the first new products that came out from the jointed knowledge of Dreambaits and Marcel Van Den Eynde.

READYMADES - BOILIES

### Classics Boilierange

At Classics Boilies, quality is high and prices are low. A bait developed with the know-how and best ingredients of the firms Dreambaits and Marcel Van Den Eynde. A bait suitable for short fishing sessions, an attractive bait with a delicious classic flavour that will get you action everywhere.

Available in 20 mm in Strawberry, Pineapple, Tutti Frutti, Sweetcorn, Fish and Garlic.

Classics Boilierange

READYMADES - BOILIES

### Shoarma

The Shoarma mix is a nicely balanced mix with more than 14 different spices, chosen on their taste, attraction and water solubility.

The Shoarma is a high-protein bait, this is partly made possible by a generous amount of fish meal. Roasted linseed gives an extra crunch to the bait and the fats also become more soluble and digestible. To give the boilies even more power, we have added extra liquids, these ensure smoother leakage of the herbs and water-soluble ingredients. Instant action is therefore guaranteed!

Available in 1 & 3 kg bags in 15, 20 & 25 mm.

READYMADES - BOILIES

### Vanille and Trouvit

In developing this range, we used our own MVDE boilie mix 50/50 as a base. We have been selling this base mix for many years which made it logical to use this mix as a basis. With Dreambaits know-how, we have developed this mix into a new product that meets the demands of today's carp angler.

For the **Trouvit** we added high-quality LT fish and salmon meal. The smell and composition is based on the widely known trouvit pellets.

For the **Vanille** we added several seeds for a nice crunch in the boilie but also a faster release of the starches, amino acids and essential oils present. We have chosen to add a delicious Vanilla aroma by Marcel Van Den Eynde, a flavour that has proven itself for years and gives this mix a sweet identity.

## WHY USE DREAMBAITS POP-UPS?

- Our Pop-Ups feature the best flavours, tested in aquaria and proven in practice.
- The Pop-Ups are chod-proof and have a minimum 48-hour buoyancy....
- The Pop-Ups feature extra liquid attractors that make them extremely attractive.
- Also available in the readymade boillierange in equal flavour and colours.

**Sweet Dream**

Dosage: 1-20g per kg of bait

Sweet Dream is a complex of sweeteners based on Talin. It will increase food intake. Sweet Dream is boil-proof and therefore retains its flavour after the cooking or steaming process.

SOLUBILITY

ATTRACTION

**Special S**

Dosage: 5-20g per kg of bait

Special S is a well-known carp attractor. Its smell is slightly reminiscent of butyric acid, but it consists another acid that is very attractive, known for catching big fish and is a plus in winter.

SOLUBILITY

ATTRACTION

**5 Spices**

Dosage: 2-10g per kg of bait

5 Spices is an extremely strong spice blend in which the 5 basic flavours sweet, sour, salty, bitter and umami come together.

SOLUBILITY

ATTRACTION

**WHY USE DREAMBAITS ADDITIVES?**

- These are pure-based, not diluted and of the best quality.
- One of the many advantages, is that you can personalise your bait and give it extra flavour and aroma. This way, the instant character of your hookbait is greatly enhanced.

## LIQUIDS

### Fish Oil (1L)

Dosage: 10-100ml per kg of bait

Fish Oil is rich in omega 3 fatty acids, brings flavour to the bait and acts as an energy supplier. Can be used to obtain an additional vertical attraction trail. The oil rises to the surface of the water during release.

SOLUBILITY

ATTRACTION

### Arctic Salmon Oil (1L)

Dosage: 10-100ml per kg of bait

Arctic Salmon Oil is a concentrated source of omega fatty acids, energy with powerful antioxidants and possesses natural attractiveness. The oil rises to the surface of the water during release.

SOLUBILITY

ATTRACTION

### Pure Molasses (1L)

Dosage: 50-200ml per kg of bait

Pure molasses is a thick black syrup based on sugar cane. A 'heavy liquid' so the attraction remains low to the bottom is retained.

SOLUBILITY

ATTRACTION

### Liquid Liver (1L)

Dosage: 50-100ml per kg of bait

Liquid liver is a liquid liver extract derived from chicken livers. It is a premium feedstimulant and is rich in vitamin B-12 and amino acids.

SOLUBILITY

ATTRACTION

### Minamino+ (250 ml)

Dosage: 10-100ml per kg of bait

Minamino+ is a feedstimulator. Containing vitamins, minerals and amino acids. It is one of the most successful, non-oil-based liquid additives ever used in the bait industry!

SOLUBILITY

ATTRACTION

### R-Red Liquid (500 ml)

Dosage: 50-200ml per kg of bait

R-Red Liquid is based on our own developed Robin Red. A powerful and spicy herbal blend, naturally based. Brings not only flavour but also colour to your favourite baits!

SOLUBILITY

ATTRACTION

#### **WHY USE DREAMBAITS LIQUIDS?**

- Our liquids are pure-based, not diluted and of the best quality.
- The available flavours have already been tested by our team and have proven in the past and in aquarium tests.
- With liquids you can provide boilies, feeds or pellets with extra liquid attractors that make them extremely attractive.
- Also available in Amino Dips 250 ml in the readymade boillierange in equal flavour and tastes.

**Maple Cream**

**Squid**

**Pineapple**

**Scopex**

**Tutti Frutti**

**Fruit Cream**

**Sweet 777**

**Green Zing**

**Fruit Mix**

**Acid Peach**

## WHY USE DREAMBAITS FLAVOURS?

- These are pure-based, not diluted and of the best quality.
- One of the many advantages, is that you can personalise your bait and give it extra flavour and aroma. This way, the instant character of your hookbait is greatly enhanced.
- Also available in the readymade boillierange in equal flavour and tastes.

# ENHANCERS

# 06

## D-CELL PELLETS

### Micro Pellets (3 mm)

---

D-Cell micropellets are ideal for use in Methodfeeders (soak for 3 minutes and let rest for a while) or for supplementary feeding during Match fishing.

### Hookable Pellets (4,5 mm, 6 mm & 16 mm)

---

D-Cell Hookable/Extrudé pellets are very attractive and already naturally sink. These “extrudés” absorb water, liquids and additives to the core and have a high elasticity that allows them to be fished perfectly on the hook.

### Instant Pellets (10 mm)

---

A fast-soluble pellet that can absorb maximum liquids. This pellet is ideal for quickly attracting fish to the feeding spot and can be used on its own or mixed.

Available in 1 & 3 kg bags.
